DETAILED ACTION

Response to Arguments

Applicant's arguments filed 9/5/04 have been fully considered. Applicant has incorporated previously indicated allowable subject matter into the independent claim to place the application in condition for allowance.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, a portable communication network comprising the individual items of claim exist in the art as shown by the Collott and Burr references. However, a portable network where each communication unit is enabled for measuring a time delay between an interrogation and a reply with another of the units and enabled for sending position information within a reply message, where the enabled unit further determines a relative position on the earth of the unit by a triangulation method was neither found, suggested, nor made evident by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
